

### Social Responsibility

Mark Engineering believes in giving back to the community. In partnership with the Josiah Community Organization, we have initiated a Youth Counting Program.

The program provides employment and training opportunities for marginalized youth.

Through the Youth Counting Program, youth gain practical experience in traffic engineering while earning a wage. It our way of giving back and creating opportunities.

When you choose Mark Engineering, you also choose to help your community.

For more information on our program, contact us directly.

Tottenham Secondary Plan, New Tecumseth

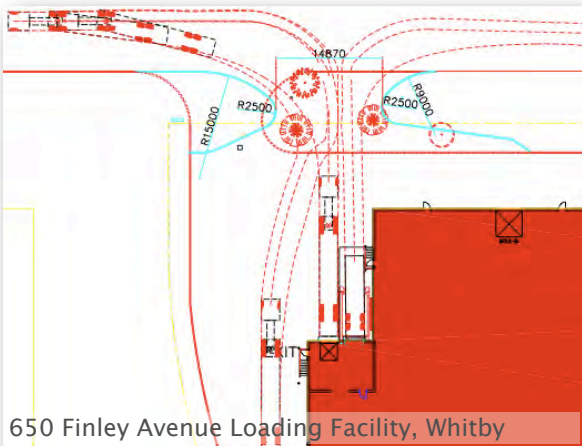

Al Towar Road, Dubai

# MARK ENGINEERING. TRAFFIC ENGINEERING.

## Experience That Counts

Mark Engineering brings almost 40 years of experience in transportation planning and traffic engineering expertise to private and public sector clients.

As a small practice, we focus on providing our clients with the personalized attention that is often lacking in larger firms. We like to work with our clients to develop viable solutions for their projects using a flexible approach to problem solving. Our thoroughness in addressing all traffic issues on a project from planning through to approval has been the hallmark of our workmanship, providing our clients with continued satisfaction over the last 13 years.

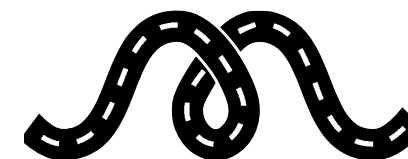

650 Finley Avenue Loading Facility, Whitby
